K2 Infragen delivers robust H1 FY 2025–26 with 76.5% revenue growth and 70% profit jump

Delhi, 17 November 2025: K2 Infragen Limited marked its milestone 100th Board Meeting with a strong performance for the half year ended 30 September 2025, reporting sharp growth in both revenue and profit.

For H1 FY 2025–26, K2 Infragen posted consolidated revenues of ₹90.85 crore and a Profit after Tax (PAT) of ₹7.32 crore. This reflects a 76.51% rise in revenue and 70.60% growth in profit over the corresponding period of FY 2024–25, underlining the company's strong growth trajectory. Annualized ROCE has improved from 22.5% to 29.7% indicating better resource capitalization.

The business continues to be driven by projects across roads, railways and transmission & distribution (T&D). Even in a period of higher input and construction costs, the company has maintained profit margins above 8%, showing its focus on quality orders, disciplined execution and profitable growth.

K2 Infragen has also stepped up investment in people and capabilities. Employee-related expenses grew only by about 48%, while profits rose by over 70%, indicating better productivity and stronger operating leverage. At the same time, other expenses dropped by nearly 57%, reflecting tighter cost control and efficiencies across the organisation. Together, these factors have supported a healthy Return on Capital Employed (ROCE), demonstrating efficient use of capital and a stronger financial foundation for the future.

Commenting on the performance, Mr. Pankaj Sharma said:

"This half year is a very special milestone for K2 Infragen. Our 100th Board Meeting comes at a time when our revenues are higher, our profits are stronger and our returns are improving. It reaffirms that our strategy of taking the right projects, executing them well and staying disciplined on costs is working."

He further added:

"India is in the middle of a major infrastructure build-out in roads, railways and power. With our growing track record and a focused presence in these segments, we believe K2 Infragen is well placed to benefit from this opportunity. We are strengthening our relationships to support the next phase of growth and continue creating value for our stakeholders."

K2 Infragen believes that its solid H1 performance, stronger balance sheet and improving return ratios position the company well for a promising second half and sustained growth in the years ahead.

About K2 Infragen
